Experience

UI/UX Designer

Halifax | April 2025 - July 2025

Head First Care

- Translated MVP requirements into structured UI/UX solutions, delivering high-fidelity mockups in Figma optimized for clarity, accessibility, and conversion goals.
- Conducted competitive analysis and collaborated closely with PMs, developers, and the product founder to refine product flows, resulting in faster development readiness and more accurate scoping.
- Achieved strong user testing feedback and earned direct praise from the founder, validating UX direction and design decisions.

UX Research Apprenticeship

Ottawa | September 2023 - April 2024

Human-Centered Design Lab

- Led mixed-method user research (interviews, surveys) based on a client-defined problem space, and translated findings into actionable UX recommendations to improve accessibility and user satisfaction in digital services.
- Created journey maps, user personas, and service blueprints to guide design decisions and align stakeholders around user needs.
- Applied usability heuristics and iterative feedback loops to identify friction points and propose enhancements across citizen-facing digital platforms.
- Earned Public Choice Award for delivering a research-driven, impactful service design proposal that resonated with both stakeholders and end users.

UI/UX Designer

Chandigarh, India | February 2023 - September 2023

Omega Orion

- Spearheaded the redesign of outdated mobile and web platforms by creating scalable, component-based UIs, enhancing consistency and development efficiency.
- Created mind maps, user flows, and redesigned core features while aligning with WCAG accessibility standards and current UX/UI trends, improving overall usability and inclusion.
- Collaborated cross-functionally with developers and product managers to ensure technical feasibility and seamless design implementation across platforms.
- Received senior leadership praise and client accolades for significantly improving product aesthetics and boosting brand visibility through modernized interfaces.

Web Developer

Surat, India | October 2021 - November 2022

Dione Apps

- Engineered scalable, high-performance web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), ensuring responsive, cross-device compatibility and intuitive user experiences.
- Partnered with UI/UX designers and product managers to translate requirements into user-centric features, increasing user engagement and aligning technical solutions with business goals.
- Optimized full-stack performance by integrating third-party APIs, applying secure coding practices, and following React development standards, resulting in robust and maintainable solutions.
- Delivered client-ready solutions that exceeded performance expectations, contributing to improved customer satisfaction and long-term product scalability.

Education

Full Stack Application Development

Post Graduate Certificate | September 2024 - May 2025

Nova Scotia Community College

- Developed a full stack Next.js application featuring AI matching by following to industry-level concepts such as UI/UX principles, database management, software methodologies, software security, and web/software development.

Interdisciplinary Studies-Human-Centred Design

Post Graduate Certificate | September 2023 - April 2024

Algonquin College

- Courses in UX research, service design, inclusive design, and stakeholder engagement
- Recognized for research-based design solutions addressing immigrant integration challenges in public services.

Bachelor of Computer Applications

Bachelor's Degree | June 2019 - Feb 2022

Sutex Bank College, India

- Developed full-stack web projects with React and Node; strong foundation in software principles and digital systems.

Skills

Design:	User Experience · Interaction Design · User Interface · Physical and Digital Prototyping · Visual Design · Wireframing · Low-High Fidelity Mockups
Research:	User Interviews · User Testing · Information Architecture · Journey Mapping · Qualitative & Quantitative Analysis · A/B Testing · Competitor Analysis · Design Strategy · Heuristic Evaluation · Personas · Service Blueprints
Software:	Figma · Illustrator · Adobe Creative Suite · Miro · Jira · HTML · CSS · JQuery (working knowledge) · React.js · Next.js
Visual Design:	Poster Design · Branding · Typography · Iconography · Web Design, Stylesheets and Guidelines
Other Skills:	Rapid Iteration · Cross-functional Collaboration and Communication · Human-centered Approach · Provide and Solicit feedback · Agile Development

Certifications

Research Ethics Board Certification, Oct 2023 – PANEL ON RESEARCH ETHICS
